

ThermaSyn FG Chain Grease

- *Specially Designed for Lubrication of Chain Systems in the Food Industry*
- *"Semi-fluid" - Ease of Use*
- *Durable & Cost Saving*
- *Reliable Performance at High Temperature and under High & Shock Loads*

SPECIAL FEATURES

OMEGA 27 ThermaSyn FG Chain Grease is a reliable and economical solution to effectively lubricate the chain systems used in the food industry because:

- **OMEGA 27** is specially designed with a NLGI#00 "semi-fluid" grading for ease of application.
- **OMEGA 27** is specifically engineered to lubricate chains systems in the food industry.
- **OMEGA 27** is formulated to offer extra protection to chains exposed to water/steam and chemicals.
- **OMEGA 27** is engineered to save maintenance cost by extending the re-lubrication interval.

OUTSTANDING PROPERTIES

OMEGA 27 ThermaSyn FG Chain Grease is formulated with the most advanced synthetic base fluid and thickener. It offers:

- A wide range of service temperature.
- Excellent EP protection for the chain systems operating under high & shock loads.
- Excellent thermal and oxidative stability and outstanding resistance to chemicals and water.
- Excellent anti-wear film protection.
- Extra protection since it does not form carbon residues.

USE FOR

OMEGA 27 ThermaSyn FG Chain Grease is the high performance specialized chain grease that satisfies the stringent requirements on lubricants used in the food processing & packaging industry.

Suggested applications include:

- Lubrication of transport and drive chains in the food processing & packing factories.
- Lubrication of chain conveyors going through ovens operating at high temperature up to 280°C.
- Lubrication of lifting chains, joints, racks, roller chains, etc. in the food manufacturing industry and other industries subject to high temperature up to 280°C.
